VERSE 1

```
    A           E/G#      F#m            E
Your mercy is the beauty that takes my breath away
D           A/C#      Bm7             E
Lifting me up from the pit setting my paths straight
    A           E/G#  D          Dm
Overlooking my faults You see my heart instead
          Bm             E        A
Give me eyes to see Your mercy every day
```

CHORUS

```
        D           A/C#    F#m7
When I fall and my faith is weak
     Bm             E           A          A7
I will lift my hands and say, "Come and fight for me"
          D           A/C#         F#m7
Through it all You've shown me life
        Bm             E          A
By embracing me in the safety of Your wings
```

VERSE 2

Your mercy brings me back on my knees again
Clothing me with colours calling me by name
Overwhelming my fears You hold my heart with faith
Give me eyes to see Your mercy every day
